Where: 6301 Kirkwood Blvd. SW, Cedar Rapids, IA 5240

When: June 17, 5:30 PM

Project Description:

In a visionary move, Kirkwood Community College completed conceptual planning for a facility to bring three of their very successful programs under one roof in a manner which represents actual business situations.

The facility is comprised of a conference center, a restaurant, and a hotel. The center houses a flexible conferencing suite, classrooms, testing center, business event room and administration. The food operation includes a petite restaurant floor for 100 diners, and a complete educational culinary center comprised of four instructional kitchens, classrooms, raw food storage, dish cleaning, and storage. The 75-room hotel is targeted toward business travelers and conference goers.
